Partnership Symrise, Natura, GIZ

GIZ Project

symrise 

- *Missing information by farmers about compliance to new regulations about environmental recovery initiatives*
- *Complex logistics and supply chain (long distances, poor transportation conditions, isolated communities)*
- *Communities and producers:*
 - *Lack of organizational and business management skills*
 - *Lack of cultivation and handling best practices*
 - *Lack of proper processing techniques and commercial skills*

Project Outline

Objectives and main actions

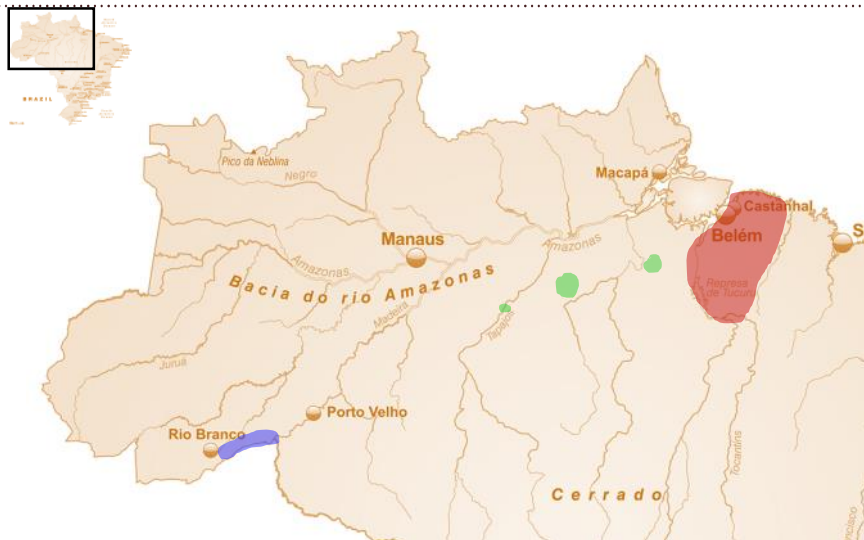

Sustainable use and recovery of rainforest resources in the Amazonian regions of Transamazônica, North-East of Pará and Ponta do Abunã are fostered.

Main actions:

- Trainment of the collectors for good practices in the forest (cultivation, handling and processing)*
- Technical assistance in the field and knowledge transfer*
- Develop and implement new technologies for processing and pre-processing*
- Assist communities to access the policies related to biodiversity and land property regularization*

Project Outline

Locations

-  Northeast of Para
-  Transamazonica
-  Ponta do Abunã

Associations, Cooperatives and Families

Northeast of Para

- 7 Cooperatives
- 4 Associations
- 850 families in total

Transamazonica

- 6 Cooperatives
- 90 families

Ponta do Abunã

- 1 Cooperative
- 200 families

Project Outline
